**Tips for Engaging Visitors**

**Greet visitors**  
Say “hello,” make eye contact, and smile. Simply looking like you’re available and friendly will bring visitors to your station.

**Let visitors do the activity**  
As much as possible, let visitors do the hands-on parts of the activity, and let them discover what happens. (If your activity has a surprise, don’t give it away!)

**Share what you know**  
Use clear, simple language. Focus on one main idea—don’t feel that you need to tell visitors everything at once! Keep the information basic for starters, and be willing to expand on an idea for interested learners.

**Use examples from everyday life**  
Familiar examples can help explain abstract concepts. Be aware of visitors’ abilities, keeping in mind that children do not have the same skills or vocabulary as adults.

**Ask questions**  
Help visitors observe and think about the activity. Try to use questions that have more than one answer, such as:  
- What do you see happening?  
- Why do you think that happened?  
- What surprised you about what you saw?  
- Does this remind you of anything you’ve seen before?

**Be a good listener**  
Be interested in what visitors tell you, and let their curiosity and responses drive your conversation forward.

**Offer positive and encouraging responses**  
If visitors haven’t quite grasped a concept, you might say, “That’s a good guess,” or “Very close, does anyone else have something to add?” Don’t say, “No” or “Wrong” in response to visitors’ observations or explanations.

**Share accurate information**  
If you aren’t sure about something, it’s OK to say, “I don’t know. That’s a great question!” Suggest that visitors go to [whatisnano.org](http://whatisnano.org) to learn more about nanoscale science, engineering, and technology.

**Remain positive throughout the interaction**  
Remember that nonverbal communication is important, too. Try to maintain an inviting face and body language.

**Thank visitors**  
As your interaction ends, suggest that visitors explore other NanoDays activities.

**HAVE FUN! ☺** A positive experience will lead to learning.
